

POOL OPENING UPDATE

May 5, 2022

During the startup of the main pool, wader pool and spa, two leaks under the pavers were detected that are currently in the process of being located and evaluated.

Our goal is to have all of these items taken care of as quickly as possible but the earliest leak detection services may be able to evaluate this issue is Monday, May 9th. We are working diligently with the Contractor to expedite these repairs but we also want to make sure that they are correctly resolved.

Thank you in advance for your patience as we work towards a successful completion of this project.
